Graduate Education Courses and Teacher Continuing Education from LessonLab SkyLight

Empower yourself with graduate courses designed for busy teachers. With our university partners, LessonLab SkyLight offers you a vast array of continuing education and graduate level courses in numerous subject areas. Take courses to get more out of your career, command a higher salary, complete teacher recertification requirements and to see immediate, positive results in your classroom.

- Become a highly qualified teacher.
- Stay abreast of new teaching strategies and curriculum.
- Customize your continuing education by choosing the courses that interest you the most and serve you the best.
- Earn graduate credit from regionally accredited universities. Some courses can be taken for CEUs or CPDUs.
- Choose a format that suits your needs - on-site, online or via video.

In response to the No Child Left Behind act and professional development requirements in many school districts, LessonLab and our university partners provide continuing education for elementary teachers and secondary school teachers in the most convenient and flexible ways possible. We offer [site-based graduate courses](#) for teachers in Illinois, or [distance learning courses](#) for teachers nationwide.
